

WHAT'S NEW...HD200 High Volume Glue Gun Engineered for Greater Productivity and Dependability

The HD200 Glue Gun combines the best features of a high volume hand gun, including a state-of-the-art heating system for accurate temperature control. Compact design with new wide trigger offering comfort and precise control.

A WORKHORSE TOOL

This high volume gun offers twice the output of guns in its price range.

It dispenses approximately 3.9 lbs of glue per hour...**READY FOR MAXIMUM OUTPUT ON YOUR ASSEMBLY AND PACKAGING LINE.**

The HD200 has an operating temperature of 400F, with its 8 PTC (Positive Temperature Coefficient) self-regulating solid state heaters that insures outstanding temperature control that maintains a consistent heat

The Melt Chamber's design provides continuous adhesive flow.

The durable handle can stand up to the most demanding temperature control ...its new comfort, ergonomically - designed hand grip allows the operator less fatigue and more precise control for hours of work.

HD 200 Safety Features:

- State -of-the-art PTC heating system.
- Handle designed for the smaller hand!
